

## SPECIFICATION

**Product Code: 23350**

**Product Name: FUSION MIXTURE AR**

(An equimolecular mixture of anhydrous potassium and sodium carbonates.)

Maximum Limits of Impurities :

|                              |         |
|------------------------------|---------|
| Insoluble matter             | 0.01%   |
| Loss on drying at 300°C      | 2.0%    |
| Chloride (Cl)                | 0.002%  |
| Nitrate (NO <sub>3</sub> )   | 0.002%  |
| Phosphate (PO <sub>4</sub> ) | 0.001%  |
| Silicate (SiO <sub>2</sub> ) | 0.0025% |
| Sulphate (SO <sub>4</sub> )  | 0.003%  |
| Calcium (Ca)                 | 0.005%  |
| Copper (Cu)                  | 0.001%  |
| Iron (Fe)                    | 0.0005% |
| Lead (Pb)                    | 0.001%  |
| Magnesium (Mg)               | 0.005%  |

**R: 22- 36**
